

HAVE YOU BACK-ACHE DODD'S KIDNEY PILLS WILL CURE YOU

"Back-ache" is the first sign of the trouble. It is caused by the kidneys being clogged with impurities. The kidneys are the filters of the body, and when they become clogged, the blood is impure, and the system suffers. Dodd's Kidney Pills are a gentle, safe, and effective remedy for all kidney troubles. They cleanse the kidneys, remove the impurities, and restore the system to its normal state. They are sold by all druggists and are guaranteed to cure you.

Brooke's Daughter

When in Despair
When in despair of being cured of long standing rheumatism, it will bring relief from the use of Brooke's Daughter. This medicine cures all rheumatism, whether it be of the joints, muscles, or bones. It is a powerful, yet gentle, remedy that has cured thousands of sufferers. It is sold by all druggists and is guaranteed to cure you.

Brooke's Daughter

London, Sunday, Feb. 28. The following is a true story of a man who was cured of long standing rheumatism by the use of Brooke's Daughter. The man, who is now well and happy, writes: "I was in despair of being cured of my rheumatism, but after using Brooke's Daughter for a few weeks, I was completely cured. I can now move about freely and am no longer in pain. I am truly grateful to the inventor of this wonderful medicine."

INTENSE SUFFERING!

Mr. William Buchanan, 24 years engineer in the Cunard Steamship Company's service, 8 St. John's Road, Kirkcaldy, Fife, writes: "I suffered two years of agony from an affection in the head which six physicians pronounced incurable. They were divided in opinion as to whether it was acute neuralgia of the brain or rheumatic affection of the brain, but all agreed that I could never recover. In my paroxysms of pain it needed two and sometimes three men to hold me down in bed. When at death's door, I was applied to my head. It acted like magic. I saved my life. I am well and hearty, and have had no return of the trouble. **"ALL RIGHT! ST. JACOBS OIL DID IT."**

To the Editor of the Intelligencer.

Sir,—We commend the following to your new Council. We are constantly asking the question, How is it that no factories are being started in the State? The answer is easily given,—because they are getting better terms elsewhere.

In an article in *Harper's Monthly* for February, on New Orleans, page 386, the following occurs:—"Louisiana exports from her cotton fields, ten times as much cotton as she

the Chancellor still holds out for the full evacuation of the Army from the Crimea. His attitude toward Herr von Helldorf's proposal is believed to seal the fate of the Army in the Crimea. It is generally believed that the measure will be defeated at the second reading in the Reichstag on the probability of dislodging the Army from the Crimea. The members of the Reichstag are becoming generally convinced that the Government is determined that in view of the Government's determination to pass the bill without alterations the Army will be evacuated from the Crimea and urges the Conservatives to prepare their organization for a general election. The Conservatives are taking a pessimistic view of the situation. In some quarters the conviction exists that a Cabinet crisis is inevitable. Various opinions, however, as to the course of action to be followed by the Chancellor V. Caprivi's retention of his post.

Don't Echo Russia.

St. Petersburg, March 16.—Count Minskoff, Minister of War, has issued an agrarian Code of Regulations, directed at a publicizing effect they would support the Army bill. The Government is determined not to abandon its purpose of concluding a commercial treaty with Russia.

THE INDUSTRIAL CENSUS.

That part of the census relating to ladle and establishments is being made the object of a general attack by the liberal press and parliamentarians. Before the census was begun there were preparatory criticisms on the same quarters that it would be inaccurate and would swell the total population beyond the actual figures. It is being sought to create an impression that industrial statistics are wrong, by considering the words manufacturers and industrial establishments. While in one sense the meanings are the same, popularly they differ. The census bulletin, however, plainly state what the statistics of

A census taker is not counted under the census if he is a hired hand in a retail establishment, a clerk in a butcher's shop or not in the census publications make the meaning of the words perfectly plain. No one can be deceived by them. Those who are raising the cry of "stuffed census" are themselves deceived. They are only trying to deceive others. There is, moreover, in the census of population evidence of the general accuracy of the census of material establishments. The number of persons in 1911 is given as 75,768, and in 1910 as 73,936. The increase is 25,848 or 34.9 per cent. The increase in the number of employees was from 254,995 in 1910 to 344,899 in 1911, or 34.9 per cent. The population of Ontario in 1911 was 4,324,814. The increase was 181,191 or 4.2 per cent.

MORLEY IS HAULED OVER

LONDON, March 16.—There was a crowd-
ing in Exeter Hall yesterday on behalf
of Dr. Barnardo's homes.

A report of Mr. Morley, the Inspector
General of Customs, has been again dis-
puted.

A statement was read from an
American denying that his report,
allegedly illegal, had caused a ship
from Great Britain to Canada, ap-
proaching or condemned civil eniga-
ma.

No one, however, were contained
in the commercial goods of the
ships of the alleged act of poor
law in Great Britain in shipping criminal
to America.

Therefore a resolution was moved by
Girdlestone, seconded by Row, M.
P., resolved that the committee
to communicate the desired state-
ment, protesting against the use of such lan-
guage contained in his report on the
Italian people.

only the moderate growth, there has been a large increase in the towns of 10,000 to 20,000 inhabitants. The factories are located. Villages of over 5,000 inhabitants increased by 40 per cent, towns of over 3,000 inhabitants by 45 per cent, and villages of 1,500 inhabitants by over 20 per cent. In the ten years cities and towns of 5,000 inhabitants or over increased in number by 35 to 47; towns from 3,000 to 5,000 by 35 to 45; towns from 1,000 to 3,000 by 35 to 91. In the division of population, the residents of villages of less than 1,500 are counted as rural, though among the inhabitants are many who make their living in industrial establishments. In most cases the growth of the towns has been in keeping with that of the larger cities. It is not to be assumed that they differ from the thirty-three villages that in the decade rose to the urban population limit and came into the urban classification.

January. On the 15th of that month, two piratical craft, having run ashore of the inlet in the Gulf of St. Lawrence, were called to anchor by the ship's captain, for shelter, some of the pirates, who had suffered repeatedly from the smallpox, were allowed to land, and the two others were ordered to take some of their number at the hands of the natives. Some of the pirates landed, and the natives, who were assistants of the village. A consultation held, and 500 well armed men, with their bows and arrows, at the first of the morning. They burst open the doors and the cabins and the stores of the vessel on the 50 or 60 men, who, including the pirates, were on the lower deck of the junk, brought taken by surprise, hardly had time to get on their feet, and were almost hanked to mince. They the exasperated villagers. The pirates were taken to the shore, and were to be made away with in a different manner.

That among the villagers had been killed by the pirates son of the patriarch of the village. The two pirates accursed by the natives, were taken to the shore, and were to be made away with in a different manner.

increase in population, gathered to work. If there was not an increase in the open end to industrial operations there would have been no increase in urban population, villages under 1,600 inhabitants excluded, was 38 per cent. The increase in the number of employees in industrial establishments, in rural as well as in districts, was 44 per cent. The growth of the minor villages, excluded from the population estimation of urban districts, included of course in the count of industrial establishments, would easily account for the difference of 6 per cent. between the two increases, that of villages and that of industrial establishments. And so for the difference of 13 per cent. between the increase in urban population and the increase in the number of industrial establishments. The figures objected to by those who, for partisan purposes, attack the survey of the industrial census are in actual accord with those of the popula-

The reform party are appealing to the vote as against the manufacturers, whom they represent as a monster, fattened upon the toil of the agriculturist. Many reformers like Mr. Clute advocate trade in dazzling light as a pinnace at hard times, poor crops, and poor

NEWS OF THE CHURCHES

TABERNACLE CHURCH.

There were five congregations at the Tabernacle yesterday. In the morning, M. J. Ormsley, the pastor, preached from the text, "Secret things belong to God, but things revealed belong to us and to our children." In the evening Mr. Cole, Sec. of Y. M. C. A., gave a splendid address from the words, "This man doth sinners, and eateth and drinketh with them." The services throughout the day were full of interest and profit.

THE SARNIA IS IN PORT

THE STEAMER WAS JUST SEVEN DAYS OVERDUE.

The Oceanic Cruiser Newfield Found Her and Accompanied Her to Port. All the Too Odd Passengers Arrived.

HALIFAX, N.S., March 20.—Nine o'clock last night was announced from the signal station that the steamer Sarnia and steamer Newfield were off the port, and considering the fact that they had been overdue for some time, it was assumed that the Sarnia, of course, had to anchor at quarantine for inspection by the health officers. The ship arrived in an hour and crowded with passengers and crew, who disembarked at Marine and Fisheries wharf to get any news she had.

Pointable and Potent.

The great objection to Foot-Lotion has been its removal by the process of preparation. Dr. Williams' Emulsion of Cod Liver Oil, which is combined with hypophosphites of lime and soda, is a great restorer of new blood in the world. It has cured thousands of consumptives by rebuilding their constitutions. It is everybody's friend. Emulsion in big bottles 60¢ and \$1, at all drug stores.

The Greatest Yet.

One of the greatest discoveries ever made in the medical line for the cure of scalp diseases is a salve, now getting introduced into the drug trade. There is nothing more satisfactory than a scaly scalp, and nothing more

The ships' arrival has lifted a great burden from the shoulders of the community, and therefore those present who were interested forgot to censure the captain for not taking a tow when the opportunity, so plain, was before his eyes to help him out. The thought on the ocean are all alive and well.

None of the steamers arriving at Halifax yesterday, although they came different ways, had heard any tidings of the ship Narcosis.

Captain Alexander Read, the ship's husbandman to look after the needed repairs, went down to quarantine on the Argus.

Reading Locomotive Blows Up With
Trifling Result

HOCKEY CITY, Pa., March 26.—While No. 394 of the Reading Railroad was working on a siding at the station yesterday afternoon, it suddenly exploded, wrecking the boiler and engine. Engineer Schuyler and Fireman William Vail, who were in the cab at the time, were so badly shaken that they cannot survive. A hot coal from the firebox was hurled in all directions and falling on the engine in the vicinity 50 ft to and 60 ft from the engine, it was a very dangerous number of them. For a short time the fire was high, as there were a dozen houses on the siding.

Plains, March 20.—Saturday night, March 20, a fire broke out in a building on the corner of 10th and 11th streets, owned by Joseph Hartman, who was killed by the explosion which occurred in a room back upon the property formerly owned by John H. Hayes, a well-known ex-captain of the 6th Iowa Cavalry, who was killed at Gettysburg by a shell fragment.

The building of the victims were on the first and the group was shown photographs. The explosion was caused by premature explosion of dynamite, it is believed.

As to the jurisdiction of the County

stood that the views expressed are a summary of
the correspondence themselves.Seed Testing and Distribution of
Seed Grain.

To the Editor of the Intelligence.

Sir.—Knowing that farmers generally
are much interested in the above subjects,
I permit me to place before your readers the
following:

SEED TESTING.

The work of testing the germinating
power of grain and other agricultural seeds
is now in active progress at the Central
Experimental Farm in Ottawa. Up to the
present over 1,000 samples have been tested
and reported on this season, and on the
whole with very gratifying results, showing
a good percentage of vitality. There are,
however, some districts in the Dominion
from which samples have been received of
very poor quality and quite unfit for seed,
in some parts of Manitoba the harvest sea-
son, especially in some sections of Ontario
and Quebec, the weather during the last har-
vest season has been so unfavorable that the
stock was subject to repeated wettings
before it could be housed, and in the mean-
time some of the grain has been so injured
that such samples also show a low degree
of germinating power, and it now seems
very likely that the result will be poor crops.Any farmers desiring to send further
samples for test should forward them
out delay; the packages should contain
only one ounce each, and they can be sent
to the Experiment Station through the
mail. The samples are tested and reports
are usually forwarded in about ten days.Last year 10,000 sample bags of promi-
nent sorts of grain, weighing 3 lbs. each,
were sent free through the mail to 9,144
farmers residing in different parts of the
Dominion. This large quantity of grain,
over 20 tons, was all of first quality and
was distributed in the form of samples.
The object of this distribution is to
enable farmers to test the quality of the
seed they are using, and to know the
value of the seed they are using, and to
know the value of the seed they are using,
and to know the value of the seed they are
using, and to know the value of the seed
they are using, and to know the value of

and to know the value of the seed they are

PROLOGUE TO EASTERN NOW

ERALLY BELIEVED

Mr. Edgar's Amendment to Charge

Against Sir Richard Cartwright

Majority of 80-100 Remained

Amay

Ottawa, March 24.—It is difficult

to ourselves down to a week from

Saturday for the "prologues" and the

business of the Opposition. It is

most probable that the business of

the House will be completed before

immediately after.

This agrees with the general

opinion, and is borne out by the fact

that Mr. Foster introduced yesterday

the motion for adjournment. The

motion was carried by a vote of 119

to 10. It is generally believed that

the business of the House will be

completed before the end of the

week. The business of the House
